

2017 Finals Weekend

At long last, I am able to let you have the proposed schedule for Finals Weekend - I am sorry it has taken so long. Any of you who have had the task of preparing one of these before will know how difficult the job is, and the impossibility of being fair and considerate to everyone.

There is very little flexibility as to when the matches can be played, so I would ask everyone involved in the finals to accept the dates and times allocated to them as "not negotiable". If, of course, there is a matter of life and death which makes the allotted time or date impossible for you to play, please let me know and I will see if anything can be done. It may be possible to delay the start of a match because of the weather (rain is forecast) - but this may affect later matches so I must ask you to get my agreement at the time. Please understand that deferring matches to another date is not an option - any player who cannot (or will not) play the match for any reason will automatically forfeit the game for themselves and the rest of their team.
